Subject Re: FW: DeGroate SPCC

It is fine with me, but please remember to submit bi-monthly progress reports. E-mail messages will suffice.

Subject FW: DeGroate SPCC

Dr. Yang,

It just occurred to me that you may not have received the email I originally sent to you on November 7 (below). It appears that I may have submitted to an incorrect address.

DeGroate is working on responding to your October 18, 2007 letter, and will submit that response by December 3.

In summary, DeGroate intends to have an employee live onsite, thereby providing a 24-hour presence. They also intend to take the tanks located outside of the Heavy and Lube Oil Building out of service, and move storage for those oils inside of the building. They have requested 6 months to implement these corrective actions. A revised SPCC Plan will be submitted to you within 2 weeks following the implementation of these corrective actions. Is this adequate to USEPA's needs? We would like to ensure it meets your needs prior to submitting the written response.

Please contact me if you have any questions.

Thanks,

Greg R. Zumbaugh, P.E., CHMM

Subject: DeGroate SPCC

Dr. Yang,

Per our telephone conversation today, we understand that you have approved a two week time extension to respond to the USEPA's October 18, 2007 letter regarding DeGroate Petroleum's (located at 441 DeGroate Road in New Lenox, IL) SPCC Plan deficiencies. DeGroate is currently reviewing options for addressing the deficiencies, and will submit a formal response by December 3, 2008.

We appreciate your cooperation with this matter. Please contact me if you have any questions.

Thanks,

Greg R. Zumbaugh, P.E., CHMM
